Message from the Chair

The year has got off to a good start with the appointment of IAMRA's Membership Committee and the Physician Information Exchange (PIE) Working Group.

The Membership Committee, chaired by Mr David Hooper, Senior Director, Marketing and Physician Data Center with the Federation of State Medical Boards of the United States is focused particularly on building IAMRA's membership in Asia and South America.

This year the Membership Committee will be surveying members about the value they get from being a member of IAMRA and the regulatory issues they face. I look forward to sharing the results with you in the coming months.

The Physician Information Exchange (PIE) Working Group is chaired by Mr Niall Dickson. Niall is Chief Executive and Registrar of the General Medical Council (UK) and is working towards the improvement of patient safety and public confidence in medical regulation, and the facilitation of international professional mobility through the timely exchange of relevant, accurate and reliable information on doctors between medical regulatory authorities.

A schedule of meetings for these two groups has been set and in the coming months I look forward to updating you on the work they are undertaking.

Work has also begun under the guidance of Niall Dickson on the 11th International Conference on Medical Regulation to be held in London, England in September 2014.

Kind regards,

Philip Pigou
Chair
