

IAMRA Regulatory Best Practice Working Group Charge

The Regulatory Best Practice Working Group reports to the Management Committee and operates under the following charge.

- 1.** The Regulatory Best Practice Working Group will assist the Management Committee to achieve IAMRA's Goals* as set by the Management Committee from time to time.
- 2.** The Regulatory Best Practice Working Group's work program will include, but not be limited to objectives and targets set by the Management Committee related to supporting and encouraging members to provide, in the interest of the public, regulatory practices and systems that strive for best practice and contribute to the provision of safe and effective health care by the medical profession. Currently, these objectives and targets are as follows:
 - a.** Present biennial symposia
Targets:
 - Present IAMRA's next Symposium on Physician Health and Wellness: Regulation in Health Systems Under Pressure (to be Hosted by the Medical Council of Ireland at a date to be determined)
 - b.** Regulation re-imagined
Targets:
 - IAMRA will conduct a Member Needs Assessment to determine the most pressing issues that members are facing. Outputs such as webinars or statements will then be based on the feedback received.
 - Draft a statement recognizing the regulatory consequences of the COVID-19 pandemic, including deregulation, workforce supply, task shifting, working conditions, new service models, experimental treatments, and the ethics of prioritization.
- 3.** The Regulatory Best Practice Working Group will advise the Management Committee on any other matters it considers to be relevant to the pursuit of IAMRA's Vision, Goals and Objectives.
- 4.** The Regulatory Best Practice Working Group will provide regular reports to the Management Committee and a report to the Members General Assembly.

*IAMRA's current Goals, are as follows:

1. Creating a global community of medical regulators by expanding IAMRA's membership, partnerships and impact, and increasing value to members;
2. Supporting and encouraging members to provide, in the interest of the public, regulatory practices and systems that strive for best practice and contribute to the provision of safe and effective health care by the medical profession;
3. Leveraging technology, i) in pursuit IAMRA's purpose, including the sharing of fitness to practice/disciplinary information among IAMRA members; and ii) guiding members on the adoption of technology in regulation and healthcare.
4. Strengthening the evidence base for regulation by encouraging research and evaluation of regulatory processes, and the publication and sharing of findings.
